Profile Summary

Motivated and detail-oriented Software Developer with 1 year of practical experience in building scalable web applications using Python and Django. Skilled in backend development, database design, and RESTful API integration. Proficient in MySQL for efficient data handling and experienced with Postman for API testing. Adept at delivering clean, maintainable code in fast-paced, collaborative environments.

Experience

Python Developer Trainee   **Dec 2023 – Dec 2024**
Besant Technologies, Chennai

- Developed and maintained full-stack web applications using Python and Django, improving backend performance.
- Designed and normalized relational database schemas; implemented CRUD operations using MySQL and SQLite.
- Collaborated in Agile sprints, contributing to new feature development, bug fixes, and code reviews.

Technical Skills

Programming Languages: Python
Frameworks: Django, Django REST Framework (DRF)
Databases: MySQL
Frontend: HTML, CSS
Tools: Postman API Tool

Projects

Library Management System
Python, Django, MySQL, DRF
Designed and developed a responsive web-based system to streamline library operations and resource management.

- Integrated Django REST Framework to provide a robust and scalable backend API.
- Enabled real-time inventory tracking and user account management.
- Optimized database queries for faster data retrieval using MySQL.

Real-Time Chat Application
Python, Django Channels, WebSockets, SQLite
Built an interactive chat application enabling real-time communication between users.

- Utilized Django Channels and WebSockets to implement asynchronous messaging.
- Ensured persistent chat history with optimized SQLite models.
- Integrated user authentication and a responsive UI using HTML and CSS.

Education

Bachelor of Science (B.Sc) in Computer Science
Mar Gregorios College, Chennai   **2019 – 2022**
